

EXECUTIVE ASSISTANT

V

27 June 1967
LCDR Koczak

NOTE FOR THE DIRECTOR

SUBJECT: SIGINT Reflection of LIBERTY Incident

Attached are three items provided to
Mr. Coyne last Thursday (22 June)

- A - Preliminary report of initial scanning of four tapes of intercept by the LIBERTY on the morning of the attack. No reflection of the attack on the tapes at this stage. Detailed transcription is presently being accomplished. Only one Hebrew linguist is available in G6.
- B - Final transcript of ACRP intercept P.M. 8 June air/ground Israeli communications surrounding the LIBERTY attack.
- C - Amplifying data originally intended for the JCS team. Since the team claimed it had sufficient information with which to publish their report, we couldn't let the material go to waste.

K

Declassified and approved for
release by NSA on 02-27-2007
pursuant to E.O. 12958, as
amended. ST 51732.

UNITED STATES GOVERNMENT

Memorandum

~~SECRET~~

TO : LCDR Koczak

DATE: 21 June 1967

FROM : W. G. Deeley

SUBJECT: Telecon with Mr. Patrick Coyne Regarding the USS LIBERTY

1. This morning I received a telephone call from Mr. Coyne at 0925. I was in conference and returned his call at 1115.

2. Mr. Coyne stated that he had received a report from the Pentagon that NSA had received additional SIGINT bearing on the USS LIBERTY incident. I informed him that I was not aware of any additional SIGINT bearing on the incident but that I would check and call him back. He also asked if NSA had received the intercept materials that were aboard the USS LIBERTY and, if so, had we processed them. I told him that I would check this also and call him back.

3. I called G605 and ascertained that:

a. No SIGINT bearing on the USS LIBERTY has been reported since 13 June--the date on which we briefed Mr. Coyne.

b. Four tapes were received by G6 this morning from the USS LIBERTY with a date of intercept of 8 June. An initial scan had revealed nothing bearing on the LIBERTY incident. The tapes would be transcribed in detail.

c. The ACRP tapes of 8 June relating to the EO 1.4.(c) helicopters sent out by Israel after the incident had been received and were undergoing detailed transcription.

4. I called Mr. Coyne back and provided him the information in Paragraph 3, above. He seemed satisfied but asked that he be informed of the outcome of Paragraphs 3 b and c, tomorrow morning. I informed him that you would call and give him the results. He can be reached on White House extension 19, secure.

5. You should call G605 and make sure that they provide you the requisite information as soon as it is available but not later than tomorrow morning.

~~SECRET SAVED~~

AFTERMATH OF ISRAELI ATTACK ON LIBERTY 1967

1. General

The following activity is based on Israeli plain language VHF/UHF voice communications intercepted on 8 June 1967 between 1229Z and 1328Z. This activity deals solely with the aftermath of the attack by Israeli jet aircraft and torpedo boats on the USS Liberty (GT35). There are no COMINT reflections of the actual attack itself.

2. Summary

At 1239Z, two Israeli helicopters, 819 and 815, were dispatched by Hatzor to the area of the incident to check for survivors of an unidentified "warship". At 1239Z, the air controller at Hatzor further clarified the identity of the ship to the two Israeli helicopters by informing them that the vessel was an Egyptian cargo ship.

At 1307Z, Hatzor told helicopter 815 to take any survivors that spoke Egyptian to Al 'Arish (31-58N 34-54E) but if they spoke English to take them to Lod (31-58N 34-54E).

At 1312Z, the Israeli helicopter 815 apparently informed Hatzor on a different frequency that it had sighted an American flag on the ship. Hatzor then asked the helicopter to make another pass to check "if this is really an American flag".

The helicopters and the MTBs were communicating on a UHF frequency whereas the helicopters and the air controller at Hatzor were using VHF throughout. At 1318Z, helicopter 815 informed the MTB using callsign PAGODA that the ship was not in danger. The same helicopter then reported the letters G.T.R.-five were written on the ship and inquired if this meant anything. The MTB replied in the negative.

Throughout this intercept, the USS Liberty is referred to as the "big one" while the three Israeli motor torpedo boats are referred to as the "small ones". The helicopters used callsigns 819 and 815. The air controller at Hatzor air base used callsign TRIBUNE. The MTBs used callsigns THORN, PAGODA, AND CRISIS.
